Jeaneanne – Attached please find the two MOAs required for Florida assumption (EPA-FDEP MOA & Corps-FDEP MOA), with recent edits led by OGC. We are providing redline and clean versions for your review and elevation to Trey.

OGC provided the suggested edits to both MOAs. Matt Hicks and I reviewed and recommended some tweaks to track the language of the regulations more closely. OGC agreed and has given the green light (David F via staff) to share these with the Corps and FDEP.

Because language on ESA coordination is still being worked out with DOI/FWS (with DEP, NMFS, and Corps engagement to follow), the ESA language in the EPA-FDEP MOA largely tracks what Florida has seen before, with the exception of two additions:

**Ex. 5 Deliberative Process (DP)**

**Ex. 5 Deliberative Process (DP)**

We proposed transmitting the clean versions for the formal transmission, but then can also offer to staff to share the redline versions if it will help them identify what has changed.
